

Appl No.: 10/623,227
Reply to Office Action of May 01, 2006

Att. Dkt. No:
UCF-273DIV

Amendments to the Specification:

Please replace the TITLE of the patent application with the following rewritten title:

**-- PORTABLE HYDROGEN GENERATOR FUEL CELL APPARATUS AND PROCESS
FOR PRODUCTION OF FILAMENTOUS CARBON PRODUCTS --**

Please replace the paragraph beginning at page 1, line 2, with the following rewritten paragraph:

-- This invention relates to a novel portable self-contained power apparatus utilizing a hydrogen generator coupled to or integrated with a fuel cell, and more particularly, relates to a compact hydrocarbon-based hydrogen generator that produces filamentous carbon products and hydrogen gas that can be directly fed to any type of a fuel cell; the invention is a divisional of U. S. Patent Application Serial No. 09/851,025 filed on May 08, 2001, now U.S. Patent 6,653,005, which claims the benefit of priority of U.S. Provisional Application Serial No. 60/203,370 filed May 10, 2000, and was funded by U.S. Department of Energy under the contract No. DE-FC336-99GO10456. --
